Publication Chair:

DJ Weed

SCS

djweed@scs.org

Important Dates:

Full Paper Submission in PDF Form:

February 23, 2010

Notification of Acceptance:

April 24, 2010

Final Camera-Ready Submission:

May 22, 2010

Technical Program Committee

Francois Cellier, ETH Zürich, Switzerland

Douglas Creighton, Deakin Univ., Australia

Edward Frietman, Delft Tech.U., Netherlands

Helen Karatza, Aristotle University, Greece

Dietmar Moeller, U. of Hamburg, Germany

John Pearce, ISIM-ESL Simulation, UK

Srini Ramaswamy, UALR, USA

Lin Zhang, Beihang University, CHINA

F. Siemieniako, Bialystok Tech Univ., Poland

Balqies Sadoun, Al-Balqa Applied U., Jordan

Z. Sosnowski, Bialystok Tech. Univ., Poland

El Hami Abdelkhalak, INSA-Rouen, France

Granino A Korn, University of Arizona USA

Wlodzimierz Kurnik, Warsaw Tech., Poland

Guy-Alain Amoussou, Humboldt State Univ.

L. Bobrowski, Bialystok Tech. Univ. Poland

Bo Hu Li, Beihang University, CHINA

Tag Gon Kim, KAIST, South Korea

Giuseppe Iazeolla, Univ. Rome II, ITALY

F. Maturana, Rockwell Automation, USA

S. Raczynski, Universidad Panamericana

Lou Birta, University of Ottawa, Canada

Robert G. Colwell, Calif. State Univ., Chico

T. McKnight, Neurological Center, USA

A. Vinogradov, Montana State University

James Parker, University of Calgary, Canada

A. Bargelis, Kaunas Tech. Univ., Lithuania

R. Bogacz, Polish Acad. of Science, Warsaw

R. Mosdorf, Bialystok Tech. Univ., Poland

David Cook, S.F. Austin State Univ., TX USA

Call for Papers

Modeling and Simulation – Methodology, Tools, Applications (M&S-MTA'10)

Part of the 2010 Grand Challenges in Modeling & Simulation Conference (GCMS'10)

**July 11 - 14, 2010 – Crowne Plaza Hotel
Ottawa, Canada**

<http://www.scs.org/>

Sponsored by the Society for Modeling and Simulation International

M&S-MTA'10 is focused on providing a forum for internationally renowned researchers and governmental and industrial investigators to exchange ideas and discuss developments to present their latest work in all areas of modeling and simulation that are applicable to Methodology, Tools, and software Applications. In addition to peer reviewed paper sessions, there will be a plenary session, panel discussions, tutorials, and a poster session as part of M&S-MTA'10. The best contributed paper of M&S-MTA'10 will be given an award. A selected group of full papers from M&S-MTA'10 and GCMS'10 may be published in a special issue of *Modeling & Simulation Journal*.

Topics of interest include but are not limited to Methodologies, Tools and software Applications in the areas of:

- Management, Planning, and Forecasting / Logistics
- Information Assurance and Telecommunication Security
- Bioinformatics & Biological Systems
- Games and Information Technology
- Web Based Modeling
- Aerospace Systems Simulation
- Environmental Modeling & Simulation
- Education and Distance Learning
- Nanotechnology
- Discrete Systems Simulation
- Emergency Modeling
- Mechanical and Chemical Systems / Energy Systems
- Complex Engineering Systems
- Continuous Simulation Languages and Applications

Submission Procedures:

Please submit the full papers as a **PDF file** to the conference website

<http://www.softconf.com/scs/GCMS'10/>. Final version of all the

papers MUST COMPLY with the [SCS conference format](#). All the submitted papers will be peer reviewed with respect to their quality, originality and relevance. It is expected that the authors of the accepted paper to register in advance for inclusion of their paper in the conference proceedings.
