- [Call for Papers](#)
- Tutorials / Special Events:
  - [Utility Simulator Users Group \(USUG\)/NEI Scenario Based Testing \(SBT\) Workshop: Wed. 2/21](#). The joint USUG/NEI Scenario Based Testing (SBT) workshop will occur on Wednesday, 2/21/07 in conjunction with the Utility Simulator Users Group workshop that week. During this meeting, both the industry (NEI LOTF members) and the NRC (Larry Vick and others from NRR) will announce agreement on what SBT should look like and how to move forward on an issue that has been languishing now for several years. **The intended audience is:** Training Managers, Operations Training Superintendents, Requal and Initial License Training Supervisors and anyone else with a vested interest in SBT. **Point of emphasis:** this is *not just* for simulator support personnel and *not just* for plants already on the ANSI 3.5-1998 standard, so *please* consider attending and/or have the appropriate Operations Training supervisory personnel attend.
- **Online Registration**
