The 2001 SCS Western MultiConference (WMC 2001) brings together eight conferences, providing a variety of formats for the presentation of different aspects of simulation and simulators. In addition to the conferences, featured speakers, vendor exhibits, formal seminars, administrative meetings, and informal gatherings, WMC 2001 provides opportunities for presenters and attendees to meet diverse individual and corporate objectives.

ABOUT SCS

Established in 1952, the Society for Modeling and Simulation International (SCS) is the only technical society dedicated to advancing the use of computer simulation in all disciplines to solve realworld problems. SCS membership includes a worldwide network of simulation professionals, with regional councils in North America, the European Economic Community, Pacific Rim nations, and China, that meet both informally and at SCS conferences for more formal presentations of research breakthroughs.
