Current PowerPlantSim Info

The 2016 Power Plant Simulation Conference (PowerPlantSim'16) is an annual conference sponsored by The Society for Modeling and Simulation International. This conference focuses on the special needs of the nuclear and fossil power plant simulation community and includes presentations by technology and industry leaders, technical sessions, panel and roundtable discussions, and vendor exhibits. The primary goal of the conference is to promote open exchange of simulator related information between all attendees.

Who should attend?

All individuals associated with the maintenance, management, training, regulation, or application of nuclear and fossil power plant simulators are encouraged to attend and/or participate by submitting original presentations.

Topics of interest include but are not limited to:

- Simulator Training Technology
- New Simulator Technology
- Virtual Simulator Technology
- Emulated Simulator Technology
- Stimulated Simulator Technology
- Other suggestions? (contact the Track Chair)

Utility presentations and vendors co-presenting with utility presentations will be given first priority. All submittals will be reviewed and considered.

Please submit your suggested presentation title directly to the track chairs below:
