

NEW TRAINING!

Available at the 2020 Power Plant Simulation Conference (PowerPlantSim'20)

NUCLEAR POWER PLANT SIMULATOR TRAINING

JANUARY 12-16, 2020

The Westin Chattanooga | 801 Pine Street,
Chattanooga, TN 37402

REGISTRATION

Training is included with registration.
Training only (without registration): **\$300**

Register Online at scs.org/powerplant/

For over 60 years, SCS has set the standard as the first society devoted solely to the advancement of modeling and simulation. Our objective is to promote M&S as a discipline and profession through continuous research and education. We provide M&S professionals with a dynamic community and forum to publish, present, and discuss new results, developments, applications, and lessons learned, enabling the exchange between and mutual support of industry, government and academia.

Workshop Objectives

Be familiar with the functional/physical and testing requirements associated with a nuclear power plant simulator used for operator training and examination in accordance with ANSI/ANS-3.5-2009.

What Will You Gain From This Training

This workshop will address the functional/physical and testing requirements for full-scope nuclear power plant control room simulators for use in operator training and examination.

Who Should Attend?

Target audience includes simulator test operators and management associated with the administration of a simulator testing program in accordance with ANSI/ANS-3.5-2009.

What You Receive

Upon completion, you will receive a **Certificate of Training**.
