SPECTS 2020

2020 International Symposium on Performance Evaluation of Computer and Telecommunication Systems

<http://atc.udg.edu/SPECTS2020/>

July 20-22, 2020 Madrid, Spain

The goal of this annual conference is to provide a forum for professionals and researchers to discuss and disseminate the most promising contributions on performance evaluation of computer and telecommunication systems. Papers describing results of theoretic and/or practical significance are solicited. Experimental, modeling, analysis, and simulation studies as well as testbed deployment, field trials and experiences gained are all in the scope of the conference. Work presenting novel performance evaluation methods or providing insights on design and runtime tradeoffs are particularly encouraged.
