

ANNSIM'23

Annual Modeling and Simulation Conference 2023

MAY 23 – MAY 26, 2023

Mohawk College, Ontario, Canada

The **2023 Annual Modeling and Simulation Conference (ANNSIM'23)** is sponsored by The Society for Modeling and Simulation International (SCS), which covers state-of-the-art developments in Modeling & Simulation (M&S).

The Ph.D. colloquium is a great opportunity for Ph.D. students to present their progress and get constructive feedback from the Modeling and Simulation experts before completing their thesis. Accepted applicants will showcase their work via a short presentation followed by a discussion with the attendees. In addition to receiving valuable feedback, the students get the chance to network for future collaborations and a swift introduction to the research community.

Who should participate?

Students at all stages of their Ph.D. program who are working on a thesis topic relevant to ANNSIM tracks are encouraged to participate in this track.

Submissions Requirements

- Students interested in participating in the colloquium should submit a 2-page description of their dissertation. The abstract should have a single author (the student) and must be formatted using the Submission Guidelines on the conference page (<https://scs.org/annsim>). The advisor should be included in the acknowledgments.
- The advisor of the participating student must e-mail a letter of recommendation in support of the student's application to the Ph.D. Colloquium chair (hodakhail@cmil.carleton.ca) with the subject "ANNSIM 2023 Ph.D. Colloquium Recommendation". This letter should include the student's name, a candid assessment of the current status of their dissertation research, a list of publications on the topic so far (if any), and an expected date for dissertation submission.

Process

Submissions will be reviewed by at least two members of the Ph.D. Colloquium committee. Authors of selected submissions must attend the conference and present their work during the conference to get feedback from the Colloquium panel. The 2-page submissions will be available on the conference website but they will not be archived in the proceedings.

IMPORTANT DATES

PhD Colloquium Abstract Submission	March 20th, 2023
Author notification	April 10th, 2023
Conference	May 23-26, 2023
