

ANNSIM'25

Annual Modeling and Simulation Conference 2025

WORK-IN-PROGRESS

MAY 26 - MAY 29, 2025

Complutense University of Madrid,
Madrid, Spain

The **2025 Annual Modeling and Simulation Conference (ANNSIM'25)** is pleased to invite submissions for the Work-in-Progress (WiP) Workshop at the Annual Modeling and Simulation Conference (ANNSIM) 2025, to be held in Madrid, Spain. This workshop provides a unique platform for researchers, including students and early-career professionals, to present ongoing research and receive valuable feedback from the ANNSIM community.

WORKSHOP OBJECTIVES:

The (WiP) Workshop aims to foster collaboration and discussion among researchers by providing an opportunity to present preliminary results, innovative ideas, and emerging research directions. This workshop is particularly beneficial for those seeking feedback on their work or looking to engage with the broader modeling and simulation community.

TOPICS OF INTEREST

- Innovative modeling techniques
- Simulation methodologies
- Applications in various domains (e.g., healthcare, engineering)
- Emerging technologies in simulation
- Interdisciplinary approaches (e.g. artificial intelligence, social sciences)

PARTICIPATION BENEFITS

- **Feedback:** Receive constructive feedback from peers and experts in the field.
- **Networking:** Engage with fellow researchers and industry professionals.
- **Presentation:** Present your work in a supportive environment and gain visibility within the community.

SUBMISSION GUIDELINES:

Paper Length: Submissions should be 4 pages in length, including figures and references.

Publication: Accepted papers will be published in the SCS Digital Library and included in the conference proceedings. Please note that these papers will not be published in IEEE/ACM, allowing authors to expand and submit their work to future conferences.

Format: Submissions must adhere to the ANNSIM 2025 formatting guidelines, which can be found on the conference website:

<https://annsim.org/submission-guidelines/#authorkitsubmission>

Submission Process: Submissions should be made through the ANNSIM 2025 regular submission system under the "Work-in-Progress" track.

IMPORTANT DATES:

Submission Deadline	March 09, 2025
Acceptance Notification	March 21, 2025
