# POWERPLANT

2026 POWER PLANT SIMULATION CONFERENCE

## JANUARY 25-29, 2026

Courtyard by Marriott San Diego Downtown Little Italy

# 2026 PowerPlantSim

## Table of Contents

January 25-29, 2026  
Courtyard by Marriott  
San Diego Downtown Little Italy  
1646 Front Street, San Diego, CA 92101

General Information	4-5
Welcome	6
Exhibitors Information	7-13
Exhibitors Social Events	14-16
Nuclear Training	18-19
PowerPlantSim Agenda	21-27
Exhibitor and Hotel Map	28-29
Restaurants in San Diego, California	31-33
Things to do in San Diego, California	34-37
Blank Note Pages	38-39

# **General Information**

## **General Chair**

**Michael Strawser**

## **Registration**

*India Street Foyer-5th Floor*

Sunday, January 25, 2026: 4:00 pm to 6:00 pm

Monday-Wednesday, January 26-28, 2026: 8:00 am to 5:00 pm

Thursday, January 29, 2026: 8:30 am to 1:30 pm

## **General Session**

**India Street Ballroom, *Rooms 1&2-5th Floor***

Monday, January 26, 2026: 8:30 am

## **Exhibit Area**

*Amici Ballroom, 1st Floor*

Monday-Tuesday, January 26-27, 2026: 9:00 am to 5:00 pm

Wednesday, January 28, 2026: 9:00 am to 12:00 pm

## **Breakfasts**

*Amici Ballroom, 1st Floor*

Breakfast: Monday-Wednesday 7:30 am to 8:30 am

Coffee Only: Thursday 8:00 am

## **Breaks**

*India Street Ballroom-5th Floor-AM Coffee Only Break: Monday-Thursday  
10:00 am to 10:30 am*

*Amici Ballroom, 1st Floor-PM Coffee & Pastry Break:  
Monday-Wednesday 3:00 pm to 3:30 pm*

## **Training Information**

*India Street Ballroom, Rooms 1&2, 5th Floor*

Nuclear Training: Thursday, January 29, 2026: 8:30 am to 12:30 pm

# General Information

## **USUG Meetings\***

*India Street Room 3, 5th Floor*

Sunday, January 25, 2026

5:00 pm to 6:00 pm

*India Street Room 1 & 2, 5th Floor*

Wednesday, January 28, 2026

3:30 pm to 5:30 pm

## **L3Harris MAPPS Inc.\*\***

Hors d'oeuvres, and Cocktails

*Davanti Enoteca*

*1655 India Street, San Diego, CA 92101*

Sunday, January 25, 2026

5:30 pm to 8:00 pm

## **CORYS Reception\*\***

**Come Party with CORYS**

*Hidden Craft*

*600 West Broadway, Suite 130*

*San Diego, CA 92101*

Monday, January 26, 2026

7:00 pm to 10:00 pm

## **Curtiss-Wright\*\***

**Carte Rooftop, San Diego**

*401 W Ash St, San Diego, CA 92101*

Tuesday, January 27, 2026

5:30 pm

*WIFI is included in the conference meeting space.*

*\*USUG members only*

*\*\*All conference attendees are invited*

# Welcome to PowerPlantSim'26

The Society for Modeling and Simulation International (SCS) warmly welcomes all participants, organizers, and exhibitors to the 2026 Power Plant Simulation Conference (PowerPlantSim'26).

Thank you for traveling to our event.

All attendees are invited to participate in all sessions and activities, except for those specifically marked as restricted in the agenda.

PowerPlantSim'26 provides a forum for experts from academia, industry, business, and government to exchange expertise and training related to Support Simulation and Nuclear Energy.

We thank the committed individuals who ensured this event's success.

Thank you

**Michael Strawser, Talen Energy**

## L3Harris MAPPS Inc. Conference Sponsor

### 2026 Powerplant Conference Sponsor

#### HIGH REALISM SIMULATION & TRAINING

For over five decades, L3Harris (L3Harris MAPPS Inc.) has worked with leading utilities, plant designers and research organizations to create superior operator training simulators and simulators to assist in and to de-risk plant builds. We have established ourselves as the world's pre-eminent manufacturer of high-realism power plant simulators, powered by the second-to-none Orchid® simulation environment. In addition, L3Harris' 2D and 3D interactive Learning Technologies are sure to increase students' understanding and retention of power plant fundamentals and systems. Our 3D Digital Twins with unmatched immersion support Operations, Training, Engineering, Work Management/Outage Planning, Security, Radiation Protection, Maintenance and many other plant functions.

L3Harris has deployed the world's highest fidelity operator training simulators for HWR, GCR, BWR and PWR nuclear plants. Our simulators are also used to support operator training at coal, oil & gas, GT and CCGT plants.

We have vast experience in supporting New Build projects with our simulation solutions—resulting in significant error reduction in plant designs. Most recently, our technology has been applied to the simulation of Generation IV SMRs.

With our Learning Technologies (Learning Modules, System Knowledge Modules and Learning Simulators), we capitalize on the use of interactive visualization to further the objectives of power plant training programs by improving or augmenting the learning experience with a higher degree of efficiency, retention and accessibility.

Connecting your simulator to L3Harris 3D Digital Twins unlocks immersive training opportunities never available before to provide increased local and remote training realism, comprehension, communication for day-to-day operations and maintenance, and public awareness. Whether troubleshooting complex plant equipment, enhancing worker knowledge, conceptualizing and designing new large-scale reactors or SMRs, planning plant outages, monitoring and managing fleet operations, or decommissioning end-of-life plants, our 3D Digital Twins provide a safe and highly realistic virtual world to get it done right.

L3Harris' superior learning and training environments provide clear advantages for obtaining operator licenses/certification, optimizing plant operating procedures, accelerating learning and reducing costs. Personnel trained with our technology acquire the skills necessary to increase plant performance, minimize downtime, and provide confident emergency response.

## CORYS

CORYS is a global leader in high-fidelity simulation for training and engineering design in the nuclear power industry. With over 30 years of experience across PWR and BWR plant types, CORYS delivers advanced, proven simulation tools for engineering analysis, digital twins, and operator training—powering more simulators worldwide than any other vendor.

## GSE Solutions

Since building the first commercial full-scope nuclear reactor simulator in 1971, we have delivered more full-scope simulators than all our competitors combined. GSE Solutions, Systems & Simulation offers simulation applications beyond training to provide a deeper understanding of plant design issues, procedural deficiencies, and reliability improvements. With a large staff dedicated to power plant simulation, we bring the size, expertise, management skills, and experience to ensure every project is done right, on time, and within budget.

## Studsvik Scandpower, Inc.

Studsvik Scandpower is the global leader in the development and support of fuel vendor-independent reactor analysis software for PWRs, BWRs, VVERs, SMRs and Advanced Reactors. Studsvik offers a full suite of licensing-grade software and consulting services to support operating plants, fuel vendors, safety authorities, next-generation reactor developers and research organizations. Studsvik's products are used throughout the world for reactor fuel and core design, analysis, and operational support.

## Westinghouse Operating Plant Services

Westinghouse has a strong presence in the nuclear simulator sector due to its cutting-edge simulation technology, offering a wide range of products aimed at improving the safety and efficiency of nuclear facilities.

Accumulating vast experience in nuclear operations over the last 60 years has allowed us to create realistic simulators and simulation technologies, leveraging our deep knowledge into innovative training techniques and best practices in knowledge transfer. We have developed our own simulation tools (TEAMS\_SUITE), as well as our own communications system, Software/Hardware (TESIS+) and our own strict configuration control tool (CMS/SICOSIS).

We can update and upgrade simulators developed by or with third party tools and using third-party codes including RELAP5, TRAC\_RT, MAAP, NEMO, TRACE, etc.

Our Simulators are certified by the Regulatory Body according to the ANSI/ANS-3.5 2018 & ANSI-3.5.1 20xx Working Groups permitting us to develop simulators on a global scale with multiple nuclear reactor technologies. Spanish Utilities are represented by Westinghouse in the ANSI-3.5 2018 Working Group and in the Utility Simulators Users Group. We have supplied simulators to PWR, BWR and PHWR plants.

## Curtiss-Wright

### Simulation Software & Services

#### CURTISS WRIGHT SIMULATION & SIMULATION ASSISTED ENGINEERING

Curtiss-Wright a global integrated company with a long tradition of providing state-of-the-art, reliable solutions through trusted relationships to the aerospace & defense, commercial nuclear power, process, and industrial markets.

The Curtiss-Wright products and services sustain the safe, reliable, and cost-effective operation of nuclear power plants worldwide. We offer proactive solutions to critical plant obsolescence issues, and we provide state-of-the-art technologies in support of plant life extension and advanced nuclear reactors.

At Curtiss-Wright, our Simulation Group is at the forefront of developing and deploying advanced 3KEYSOFTWARE® simulation technology. We are committed to continually improving the capabilities of our technology, broadening the scope of simulation applications for intricate systems, and catering to our customers' requirements. To attain this goal, we have a robust R&D program that is market-focused and multi-disciplinary, including experts from nuclear, mechanical, chemical, electrical engineering, physics, and computer science.

Our flagship simulation product, 3KEYMASTER™, is a comprehensive platform that seamlessly integrates a real-time executive, a Graphical Engineering Station / Instructor Station, and our suite of unified graphical modeling tools.

Curtiss-Wright provides a broad portfolio of products to meet our customers' simulation needs including:

- 3KEYSAFE™ – a configuration management system,
- 3KEYDCS™ – a distributed control system library of tools,
- 3KEYSTUDENT™ – a web-based simulation learning platform,
- and many others

# Exhibitors Information

## Curtiss-Wright (Continued)

### Advantages of the 3KEYMASTER™ Environment

Environment:	One integrated environment
Object-Oriented Design:	True object-oriented design
Code Generation:	No proprietary code generators are used
Ease of Look and Feel Customization:	Graphical objects can be changed easily to match the plant data and customer preference
Flexibility:	Open architecture allowing for the addition of new tools to the existing environment
DCS System:	3KEYMASTER™ can be extended with DCS solutions for most DCS vendors in the industry today
Integration with Other Software and Hardware:	Ease of integration with other software and hardware through standard communication protocols such as TCP/IP, OPC and others
Embedding Engineering Codes:	RELAP5 – NESTLE – MELCOR – MAPP- Simulate 3R are example of engineering models and codes that have been integrated with the 3KEYMASTER™ Environment for real-time and non-real-time applications

# Training

THE SOCIETY FOR  
MODELING & SIMULATION  
INTERNATIONAL™

# POWER PLANT SIMULATOR TRAINING

**Conference Dates:** January 25- 29, 2026

**Where:** Courtyard by Marriott San Diego  
Downtown, San Diego, California, USA

**Training:** January 29, 2026

## Who We Are

For over 70 years, SCS has set the standard as the first society devoted solely to the advancement of modeling and simulation. Our objective is to promote M&S as a discipline. We provide M&S professionals with a dynamic community and forum to publish, present, and discuss new results, developments, applications, and lessons learned, enabling the exchange between and mutual support of industry, government and academia.

## Registration

Training is included with full conference registration or  
Training only (without registration): \$300  
Register Online at [scs.org/powerplant/](https://scs.org/powerplant/)

## Training Topics

- Post-event Simulator Testing-When? How to Prepare? How to Conduct?
- Transitioning the Simulator Business from the ANS-3.5-2009 to ANS-3.5-2018 Standard.

## Who Should Attend?

Target audience includes simulator test operators and management associated with the administration of a simulator testing program in accordance with ANSI/ANS-3.5-2009.

## What Will You Gain From This Training?

This workshop will address the functional/physical and testing requirements for full-scope nuclear power plant control room simulators for use in operator training and examination.

## What You Receive

Upon completion, you will receive a Certificate of Training.

For questions and more information on registration and hotel details, email [scs@scs.org](mailto:scs@scs.org), call 858-277-3888, or visit [scs.org/powerplant/](https://scs.org/powerplant/).

# Agenda

# PowerPlantSim Agenda

Monday, 26 January 2026

## Welcome and Introduction by Michael Strawser (Susquehanna)

8:30 am – 8:40 am India Street Ballroom, Rooms 1&2

## Vendor Company Overview

8:40 am – 10:00 am India Street Ballroom, Rooms 1&2 Chair: Michael Strawser (Susquehanna)

GSE Solutions Update	8:40 am-8:50 am	Ravi Khanna
L3Harris Update	8:50 am-9:00 am	Michael Chatlani
CORYS Update	9:00 am-9:10 am	Jody Ryan
Curtiss-Wright Update	9:10 am-9:20 am	Sean Fuller and David Newcomer
Studsvik Update	9:20 am-9:30 am	Jeff Borkowski
Westinghouse Update	9:30 am-9:40 am	Pablo Rey
Exitech Update	9:40 am-10:00 am	Mike Armistead

## 10:00 am—10:30 am Coffee Break

## Simulator Challenges

10:30 am – 12:00 pm India Street Ballroom, Rooms 1&2 Chair: Ira Bilancio (D.C. Cook)

- *Digital Twin Deployment and Training Challenges in the AP1000 Simulator Environment by Anwar Ferguson (Vogtle)*
- *Keeping Simulators Alive: Tales from the Maintenance Frontline by Patricia Romero and Fernando Raigoso (Westinghouse)*
- *APS Palo Verde – Strategic Modernization Project by David Oliver (APS), Max Salnikov and David Newcomer (Curtiss-Wright)*

# PowerPlantSim Agenda

Monday, 26 January 2026

**12:00 pm—1:30 pm Lunch**

## **Progress in Simulator Capabilities**

1:30 pm – 3:00 pm      India Street Ballroom, Rooms 1&2      Chair: Chad Woods  
(Wolf Creek)

- *Grand Gulf Simulator Capabilities Progress by Robert Fuller (Grand Gulf)*
- *S3R in the 3rd Nuclear Renaissance by Jeff Borkowski (Studsvik)*
- *Modernizing the Brunswick Simulator – Part 2 by Evangelia Papadopoulos (L3Harris)*

**3:00 pm—3:30 pm Coffee Break**

## **Simulator Training Tools**

3:30 pm– 5:30 pm      India Street Ballroom, Rooms 1&2      Chair: Scott Cupp (ANO)

- *A Lot of Bang for your Buck: Driving the Demand for Full Scope Glass panel Simulators by Mohammed Mansour (CORYS)*
- *Research Reactor Simulator as a Service based in SMP2 by Luciano Rielo and Leonardo Handstok (INVAP)*
- *Simulator-Integrated Audiovisual Systems: Orchid® Multimedia Manager by Michael Chatlani (L3Harris)*
- *DAEC Modern Full-Scope Digital Simulator Commission-Approval Approach by Jesse Seymour and Timothy Gabosch (NextEra Energy)*

# PowerPlantSim Agenda

Tuesday, 27 January 2026

## Simulator Modifications

8:30 am – 10:00 am India Street Ballroom, Rooms 1&2 Chair: Andrew Petrarca  
(VC Summer)

- *The Hope Creek Multi-phase THOR Models Upgrade by Dave Young (CORYS) and Bryan Pirrone (PSEG)*
- *Soft Panel Simulator Upgrades by Andrew Petrarca (VC Summer)*
- *Updating Argentina's Embalse Simulator to Reflect Plant Changes by Michael Chatlani (L3Harris)*

**10:00 am—10:30 am Coffee Only Break**

## SMR Simulator Developments

10:30 am – 12:00 pm India Street Ballroom, Rooms 1&2 Chair: Patricia Romero  
(Westinghouse)

- *Using Apros Thermal to Simulate an FHR Power Plant by William Ton (Kairos Power)*
- *A 21st Century Approach to ANS 3.5 Certification by Robert Aldridge (NuScale Power)*
- *TerraPower NATRIUM SMR – Transitioning an Engineering Simulator into a Training Simulator by Sam Browning (TerraPower), Robert Hood, Sergei Korolev, and Robert Ammon (Curtiss-Wright)*

**12:00 pm—1:30 pm Lunch**

## Tips and Tricks

1:30 pm – 3:30 pm India Street Ballroom, Rooms 1&2 Chair: Joe Yarbrough  
(Monticello)

- *Make the Computer Do It, Software Quality of Life Improvements by Skyler Brandt (Cooper)*
- *Using Visio as a Model Builder by Enrique Benedicto (Nine Mile Point)*

# PowerPlantSim Agenda

**Tuesday, 27 January 2026**

1:30 pm – 3:30 pm India Street Ballroom, Rooms 1&2 Chair: Joe Yarbrough  
(Monticello)

- *Exam Security, HVAC, and Other Inconveniences by Joe Yarbrough (Monticello)*

**3:00 pm—3:30 pm Coffee Break**

**Industry Events Benchmarking Results Panel**

3:30 pm – 5:00 pm India Street Ballroom, Rooms 1&2 Chair: Jeremy Jackson  
(Monticello)

**DG 1384 (Reg Guide 1.149 Rev 5) Discussion**

5:00 pm – 5:30 pm India Street Ballroom, Rooms 1&2 Chair: Michael Strawser  
(Susquehanna)

# PowerPlantSim Agenda

Wednesday, 28 January 2026

## Advanced Simulator Technologies

8:30 am – 10:00 am India Street Ballroom, Rooms 1&2 Chair: Steven Purdon  
(Entergy)

- *GSE Solutions Project & Technology Update by Travis Duckro and Balaji Kannan (GSE)*
- *Digital Twins by Kashmir Singh*
- *WSC partnership with KSU on Control System Update/Replacement Projects by Robin Wahlström (KSU) and David Newcomer (Curtiss Wright)*

## 10:00 am—10:30 am Coffee Break

## Upgrades and Updates

10:30 am – 11:30 am India Street Ballroom, Rooms 1&2 Chair: Michael Strawser  
(Susquehanna)

- *ANS-3.5.1-202X Update by Kashmir Singh*
- *OL3/EPR Simulator Upgrades: Full Scope Simulator I/O System Modernization and Enhanced Engineering Simulator Features by Dr. Bogdan Buhai (Framatome) and Pentti Kantannen (TVO)*

## 11:30 am—1:00 pm Lunch

## Industry Events Benchmarking Results-Simulator Staffing

1:00 pm – 1:30 pm India Street Ballroom, Rooms 1&2 Chair: Scott Cupp (ANO)

## Training Topic: Post-event Simulator Testing-When? How to Prepare? How to Conduct?

1:30 pm – 3:00 pm India Street Ballroom, Rooms 1&2 Chair: Michael Strawser  
(Susquehanna)

## 3:00 pm—3:30 pm Coffee Break

## USUG Meeting

3:30 pm – 5:30 pm India Street Ballroom, Rooms 1&2 Chair: Michael Strawser  
(Susquehanna)

# PowerPlantSim Agenda

**Thursday, 29 January 2026**

8:30 am – 12:30 pm India Street Ballroom, Rooms 1&2 Chair: Jim Florence  
(NPPSim Consulting)

**Training Topic-Transitioning the Simulator Business from the ANS-3.5-2009 to ANS-3.5-2018 Standard**

**12:30 pm—1:00 pm Lunch**

2:00 pm – 9:00 pm India Street Ballroom, Rooms 1&2

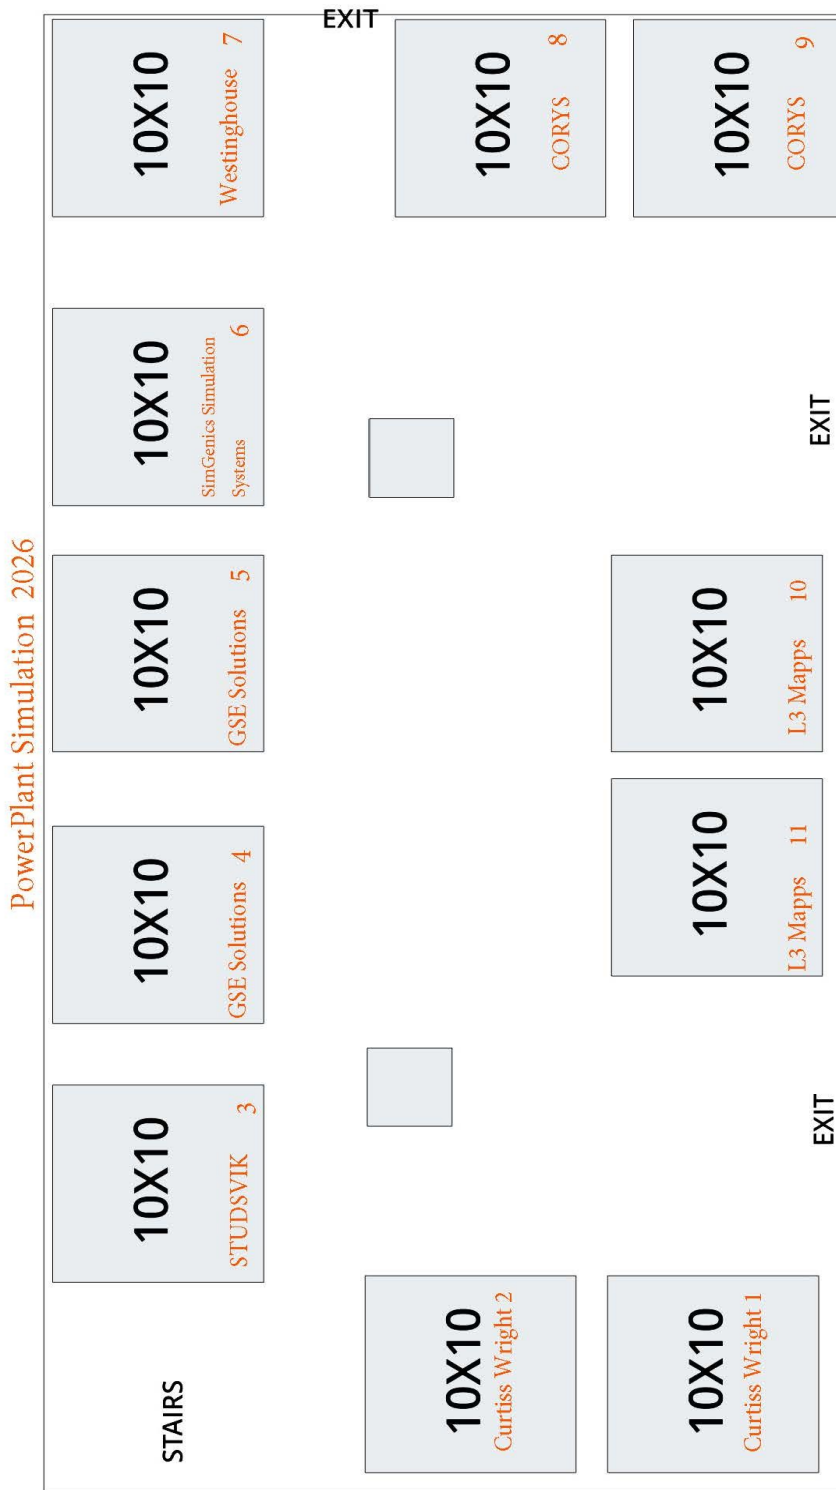

L3 Harris Owners Circle *(Invite Only)*

**Friday, 30 January 2026**

8:30 am – 1:00 pm India Street Ballroom, Rooms 1&2

L3 Harris Owners Circle *(Invite Only)*

# Exhibitor Floor Map

## Powerplant Simulation 2026 Exhibitors

Curtiss Wright (1-2)	GSE Solutions (4-5)	Westinghouse (7)	L3 Mapps (10-11)
Studsvik (3)	SimGenics Simulation Systems (6)	CORYS (8-9)

# Things to do in San Diego

## **Old Town Trolley Tours of San Diego**

See all the city has to offer onboard an Old Town Trolley San Diego Tour. The orange and green trolley takes you around the city, highlighting the most interesting places, San Diego attractions and points of interest.

## **San Diego Zoo**

Zoo Drive in Balboa Park • 619-234-3153

One of the world's most famous zoos, the San Diego Zoo offers hours of fascinating entertainment for people of all ages.

## **San Diego Padres**

The San Diego Padres have been San Diego's Major Baseball League Team since 1969. They have a large following of fans that include both San Diego residents and baseball enthusiasts around the country. Their stadium, PETCO Park, is known for its architecturally attractive design and for capturing the spirit and natural beauty of the city.

## **Hotel Del Coronado**

1500 Orange Avenue • 619-522-8490

With stunning views of the Pacific, opulent accommodations and a history filled with intrigue, the Hotel Del Coronado is an icon in San Diego.

## **Balboa Park**

Northeast Edge of the Business District • 619-239-0512

Like no place else in the country, Balboa Park offers a magnificent combination of art, architecture, history, and agriculture in one expansive park. Spanning approximately 1,200 acres, Balboa Park was once known as City Park and was founded more than 125 years ago.

## **San Diego Museum of Art**

Located inside Balboa Park, the San Diego Museum of Art is one of the most popular indoor attractions in San Diego and plays host to an enormous collection of artwork.

## **San Diego Natural History Museum**

At the San Diego Natural History Museum, the world comes to life through a variety of exhibits. The Museum was founded in 1874, making it the oldest scientific institution in Southern California.

## **San Diego Air & Space Museum**

619-234-8291

For those who marvel at man's desire to travel to the heavens, the San Diego Air & Space Museum offers an exquisite collection of exhibits, interactive displays and educational programs that outline the dramatic timeline of flight.

## **Whaley House**

2476 San Diego Avenue • 619-297-7511

Whether you enjoy spotting ghosts and apparitions or have an interest in historic places, the Whaley House is a definite tourist pleaser. The lovely brick two-story structure was built in 1857 by the original owner Thomas Whaley.

## **Star of India**

Take a stroll through history as you walk the decks, cabins, dining room and other areas of the Star of India, an iron sailing ship that once sailed to Great Britain, India and New Zealand and later became a salmon hauler on the Alaska-California route. Her voyage began in 1863 and continued for many years until she retired in 1923.

## **Seaport Village**

849 West Harbor Drive • 619-235-6569

A visit to San Diego is not complete without a stop at Seaport Village. Lovely bay breezes and picturesque views are the ideal backdrop to this open-air shopping, dining, and entertainment arena.

# Things to do in San Diego

## **Gaslamp Quarter**

Fourth and Fifth avenues are from Broadway to Market Street.

Originally known as the New Town, San Diego's Gaslamp Quarter is a historic neighborhood that spans more than 16 blocks and includes close to one hundred historic buildings. Its creation began in the 1860's when Alonzo Horton purchased the land to build a new town near the bay.

## **Midway Aircraft Carrier Museum**

910 North Harbor Drive • 619-544-9600

Step on board the Midway Aircraft Carrier that sits in the Navy Pier and gets a first-hand look at the longest-serving carrier of its kind in US history. For 47 years, the Midway served the United States Navy, a career that spans from World War II through Operation Desert Storm in 1991.

## **Old Town Market San Diego**

4008 Twiggs Street • 619-291-4903

Just a step inside the Old Town Market and you will get a sense of what life was like several centuries ago when the city of San Diego was brand new. The market offers visitors a chance to see and hear tales of Old Town.

## **Belmont Park**

3146 Mission Road • 619-656-1500

A wooden roller coaster, a carousel and a 175-foot-long indoor swimming pool are part of this Oceanside amusement park's allure. The Big Dipper, built in 1925 and now a California Historic Monument, is known for turbulent twists and g-forces.

## **Birch Aquarium at Scripps**

2300 Expedition Way • 619-534-3474

Birch Aquarium at Scripps brings to life the exciting discoveries of world-renowned Scripps Institution of Oceanography.

## **Cabrillo National Monument / Old Point Loma Lighthouse**

619-557-5450

It commemorates the landing of Juan Rodríguez Cabrillo at San Diego Bay on September 28, 1542; first time that a European expedition had set foot on what later became the west coast of the United States. The lighthouse, which is often used to depict San Diego, dates from 1855 and was decommissioned in 1891.

## **Centro Cultural de la Raza – Balboa Park**

619-235-6135

A multidisciplinary cultural arts center dedicated to creating, promoting, preserving, and educating about Chicano, Mexican, Indigenous and Latino art, and culture.
