The **2027 Annual Modeling and Simulation Conference (ANNSIM'27)** is the annual conference sponsored by The Society for Modeling and Simulation International (SCS), which covers state-of-the-art developments in Modeling & Simulation (M&S). ANNSIM'27 invites original contributions to the theory and practice of modeling and simulation in any scientific or engineering discipline including but are not limited to:

- Annual Simulation Symposium (ANSS)
- Cyber Physical Systems and Digital Twins (CPS/DT)
- Modeling and Simulation in Cyber Security (MSCS)
- Machine Learning and AI in Simulation (MLAIS)
- Modeling and Simulation for Logistics, Supply Chain & Transportation (MSLSCT)
- Modeling and Simulation in Medicine (MSM)
- Theory and Foundations for Modeling and Simulation (TMS)
- Simulation of Architectural and Urban Design (SimAUD)
- Simulation in Education and Training (SET)
- Communications technologies and Networking Simulation (CNS)
- Modeling and Simulation for Sustainability and Smart Energy Systems (S&SES)
- Human Agents and Cooperative Artificial Societies (HACAS)
- VR/MR/XR for Modeling and Simulation (VMXMS)
- Quantum Computing (QC)
- **Other Simulation Areas of Interest:** Discrete M&S, Continuous M&S, Monte Carlo M&S, System Dynamics M&S, Gaming-based M&S

The conference includes keynote speeches presented by technology and industry leaders, technical sessions, professional development, and tutorials. Scientists, engineers, researchers, educators, and business professionals who develop or use M&S methodologies and tools are invited to participate. Original, high-quality technical papers are solicited for review and presentation. Authors of the accepted papers are expected to attend the conference and present their work to their peers. Accepted technical papers will be submitted to the appropriate Digital Libraries for archiving and will be indexed in **SCOPUS/DBLP, ACM databases**.
